

Superposed Histogram of Input and Output Neurons of Dynamic Variables

Parameters:

Input Size: 8

Sequence Length: 98

Hidden Size: 48

Number of Layers: 1

Number of Classes: 10

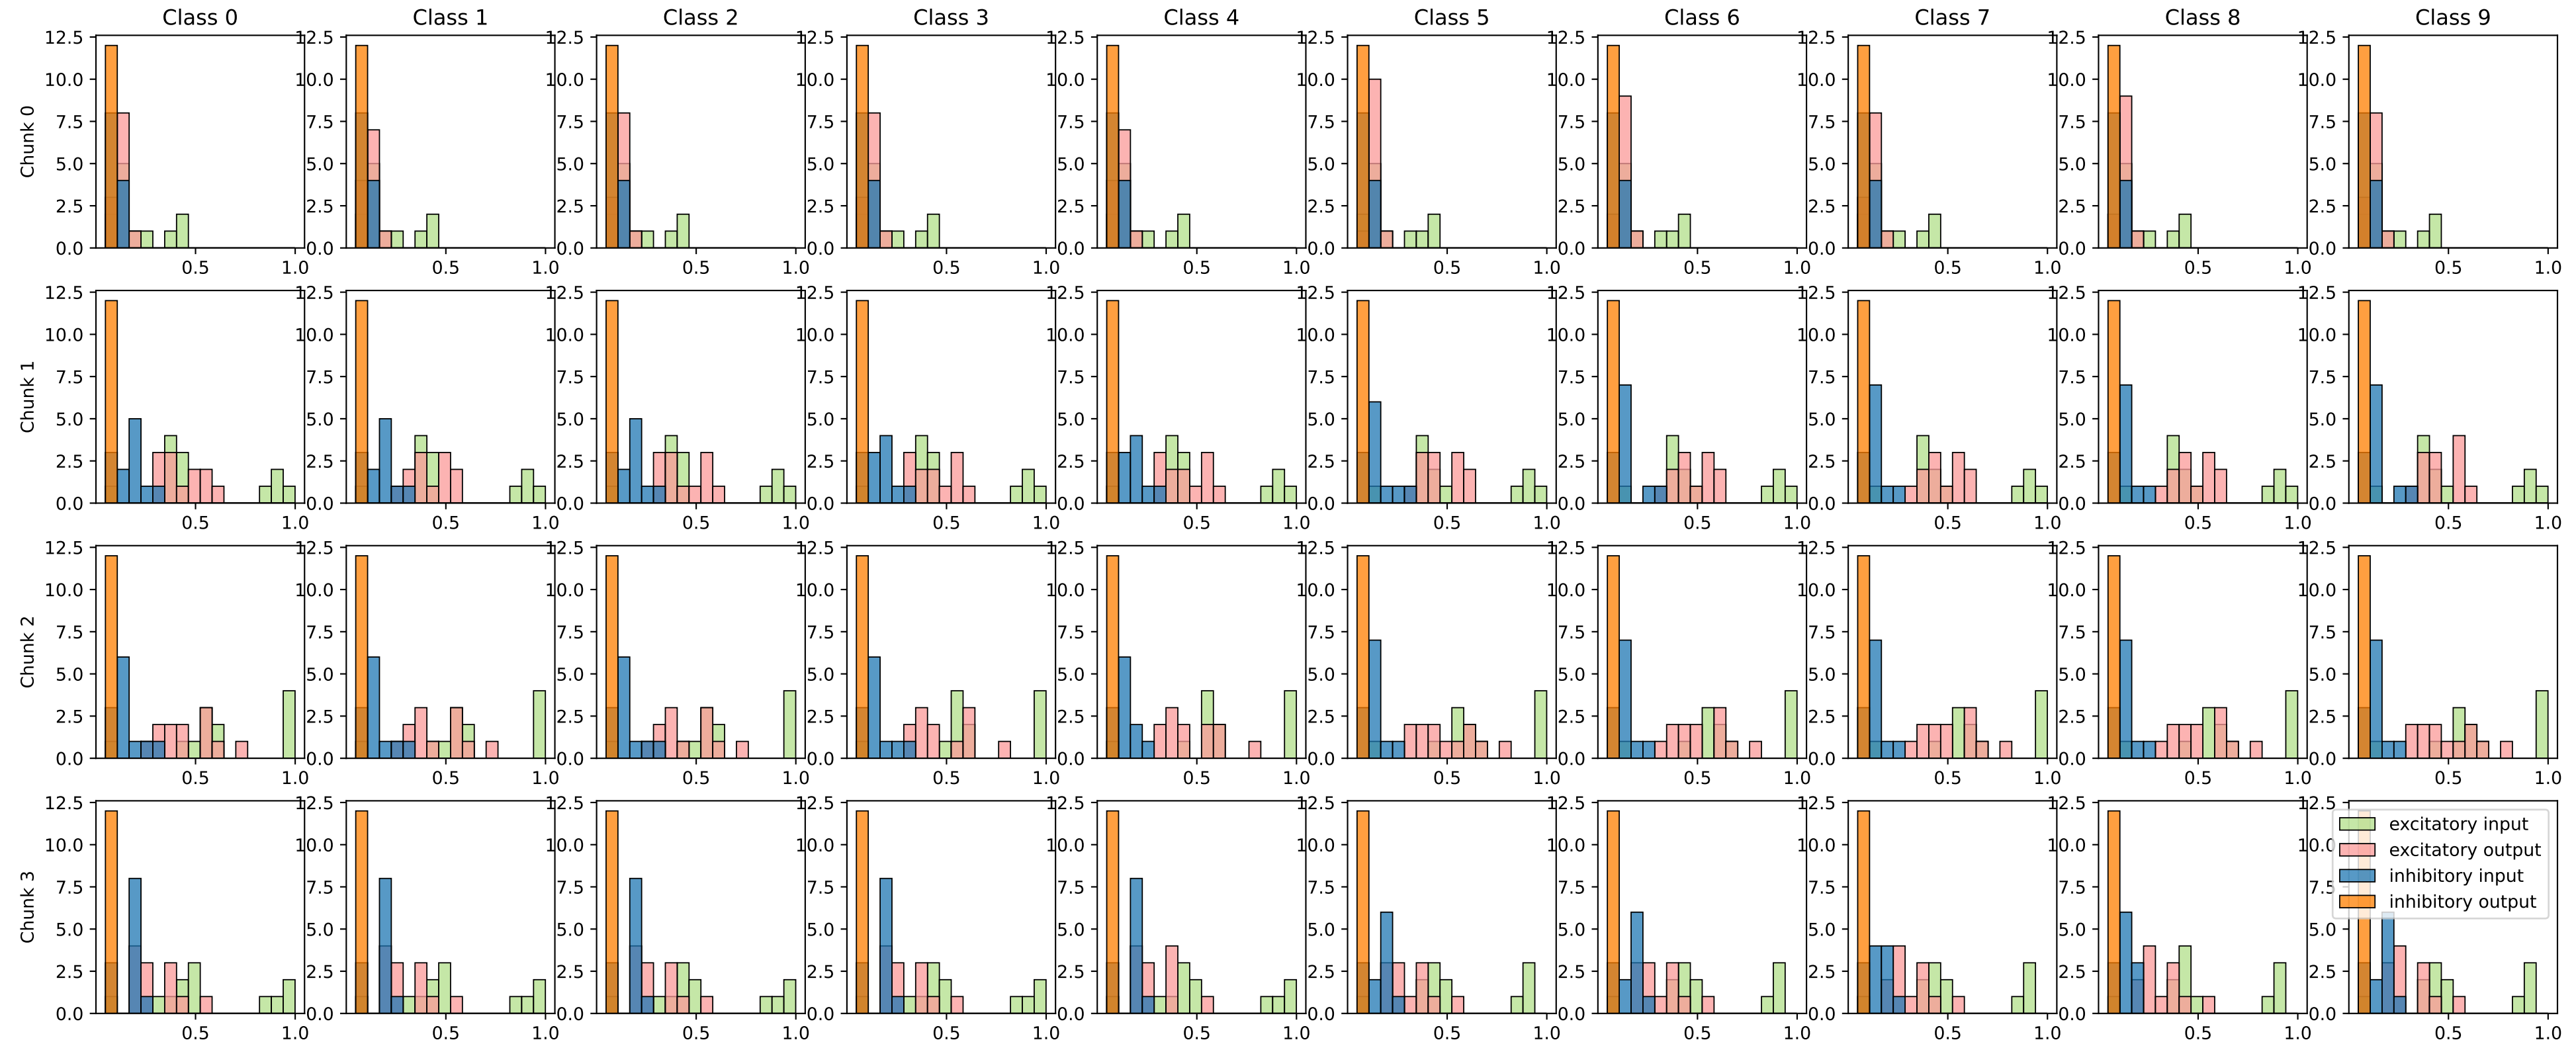

Batch Size: 40

Number of Epochs: 10

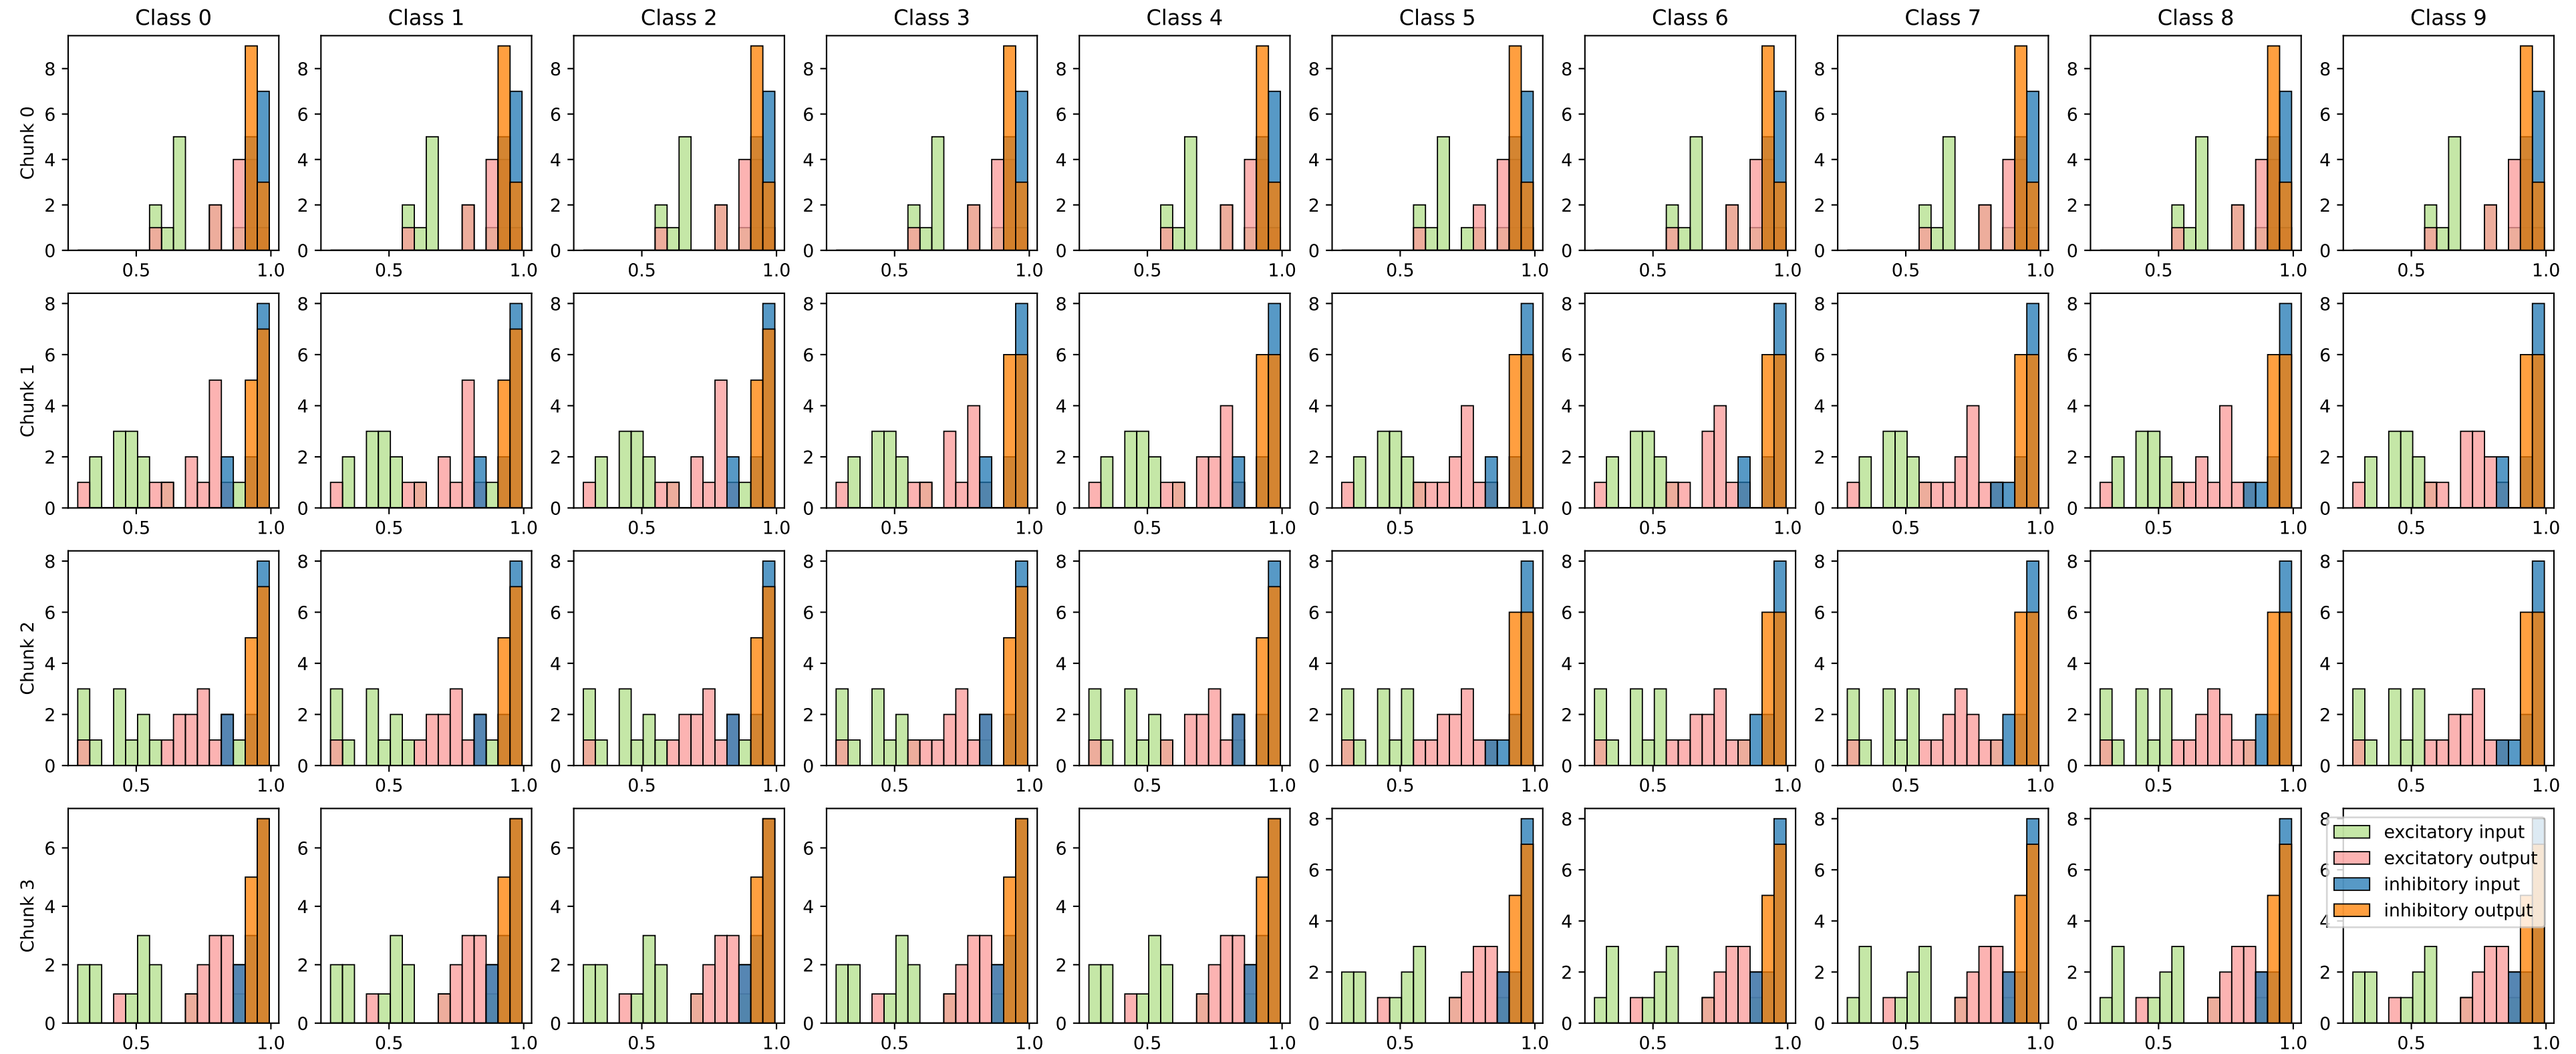

Learning Rate: 0.01

Stride Number: 4

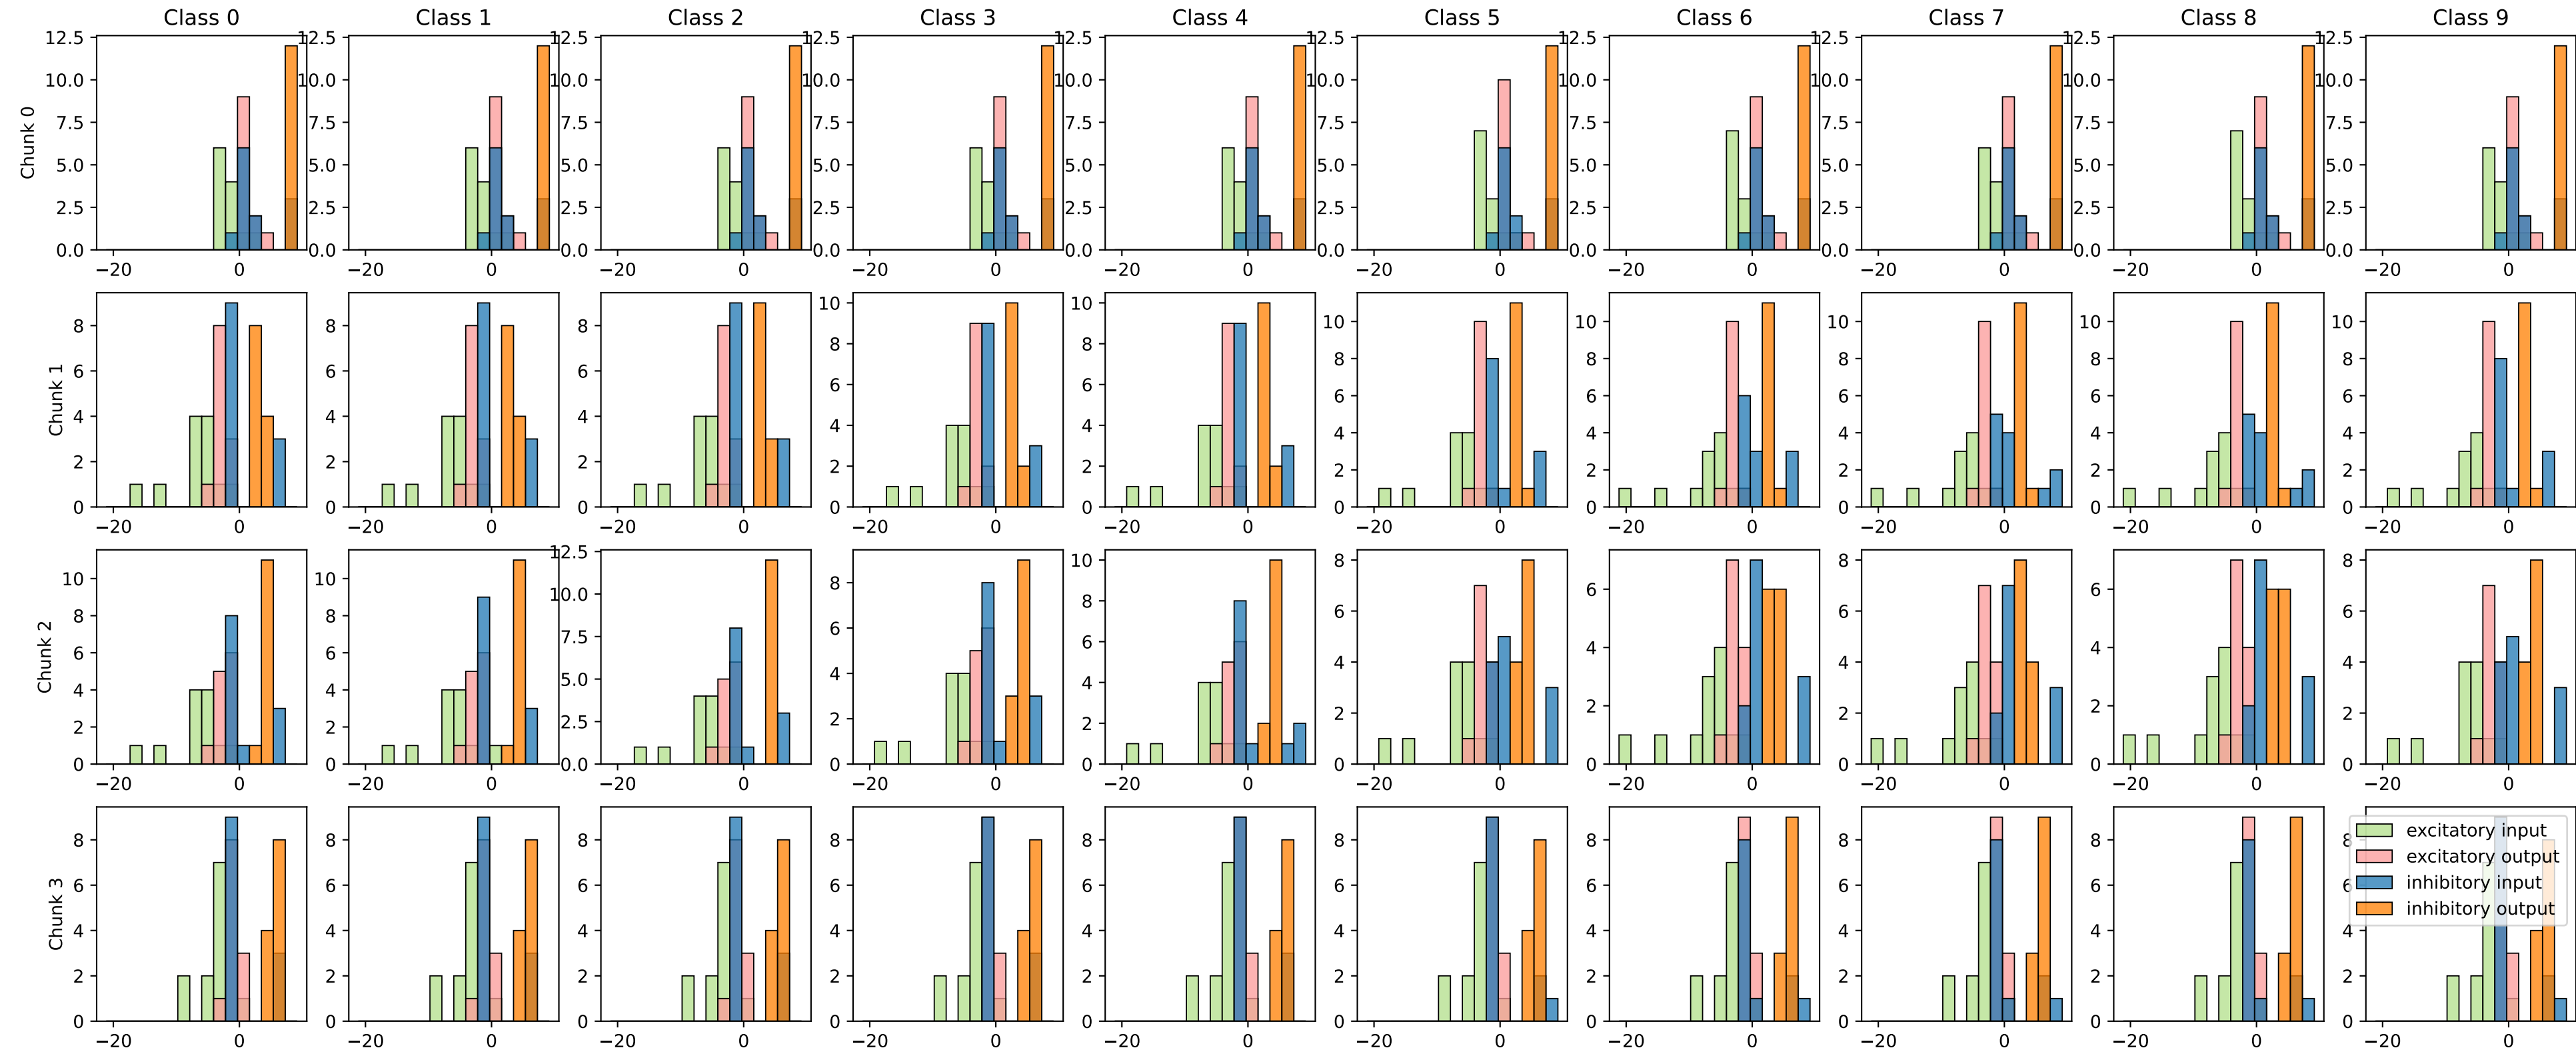

Input and output neurons x_t

Input and output neurons u_t

Input and output neurons v_t

Input and output neurons z_t
